about us

For almost a decade, Brothers Industries has been shaping kitchens with its flagship brand Delmos, a name trusted for premium stainless steel kitchen sinks. Built on precision, durability, and modern design, Delmos sinks are crafted to be more than just utility—they are the centerpiece of every kitchen, where style meets strength.

Every sink we create reflects our belief that the kitchen is the heart of the home. By combining superior-grade stainless steel with advanced manufacturing processes, we ensure sinks that are not only robust and long-lasting but also elegant and hygienic. Over the years, Delmos has earned the trust of customers by consistently delivering products that withstand daily use while elevating the overall kitchen experience.

WHAT WE STAND FOR

At Delmos, we stand for craftsmanship, innovation, and reliability. Each sink is designed with meticulous attention to detail, blending functionality with timeless appeal. Our passion lies in creating products that simplify everyday life while adding value and beauty to the modern kitchen.

COMMITMENT TO QUALITY

Quality is the foundation of Delmos. From sourcing the finest stainless steel to implementing strict quality checks, we leave no room for compromise. Every sink undergoes rigorous testing to guarantee strength, hygiene, and durability that last for years.

The Delmos Promise

Choosing Delmos means choosing a brand that puts customers first. With nearly ten years of experience, we continue to evolve with changing lifestyles and design preferences, ensuring that every kitchen fitted with a Delmos sink reflects excellence, trust, and sophistication.

FEATURES

CRAFTED WITH PRECISION :

Every Delmos sink is built from premium-grade stainless steel, ensuring strength, durability, and a refined finish that complements modern kitchens.

MADE IN INDIA :

Each Delmos sink is proudly crafted in India with global standards of quality, blending traditional workmanship with modern technology to serve today's kitchens.

STRONG EDGE DESIGN :

Thicker edge frames enhance the sink's stability while lending a bold and elegant appearance to your countertop.

SMART CORNERS :

- (a) 10 mm Soft Corners - Designed for easy cleaning, these rounded edges prevent dirt build-up and allow glassware to rest securely.
- (b) Zero-Radius Corners - Sleek 90° angles create a spacious, modern look with maximum usable bowl area.

ADVANCED DRAINAGE SOLUTIONS :

Our specially designed waste couplings ensure smooth water flow and hassle-free cleaning, reducing the risk of clogging while maintaining hygiene

SOUND & TEMPERATURE CONTROL :

Special sound-dampening pads and undercoating minimize noise from utensils and water, while also reducing condensation and helping maintain water temperature.

PROTECTIVE COATING :

Delmos sinks are coated to resist scratches during installation and protect against everyday wear, ensuring a long-lasting shine.

SUSTAINABLE & HYGIENIC :

Built with eco-conscious processes and smooth, easy-to-clean surfaces, Delmos sinks promote hygiene while supporting sustainable living.

ASSURED WARRANTY :

Every sink comes with Delmos's quality assurance and warranty support, so you can enjoy a worry-free experience for years.

HOW TO USE

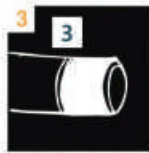

HOW TO USE PLUMBING TAPE

1 Prepare threads and make sure they are clean and free from obstruction. Place end of the tape on the thread and hold in place.

2 Pull the tape flat as you begin wrapping the tape around the pipe. Make sure tape stays taut as if you wrap it around the threads. Overlap tape slightly as you go around.

3 Make sure that both the grooves and ridges are tightly wrapped. Break tape off once the threads are covered.

HIGH GRADE PROFESSIONAL P.T.F.E **TEFLON TAPE**

TO BE USED AS

WATER • OIL • GAS • AIR
INDUSTRIAL FOOD PROCESSING
WHERE NON CONTRAMINATION

Teflon Tape
High Grade Professional P.T.F.E
MRP(₹) 36/-

SPECIFICATION

Width	12mm (½")
Thickness	0.1mm]
Length	10m
Density	50g/cm3
Composition	100% PTFE
Temperature Range	-1900C to 2080 C
Tensile Strength	8N/mm2
Elongation	50% min
Pressure Resistance	up to 30Bar (2.0 MPA)
Chemical Resistance	PH:0-14
